

Seed Collection FIELD DAY 14th Feb

Our waterways...

The flooding event of ex-Tropical Cyclone Oswald in 2013 caused severe erosion on our riverbanks and waterways in the North Burnett.

Saving our local seeds...

One cost effective method to protect and maintain our riverbanks and waterways is to encourage and re-plant local native plants to restabilise these areas.

BUT...Where do we get the plants?

Riverbank erosion resulting from the floods

Sourcing local seed is vital for successful revegetation

Get dirty with the experts...

Join us and we will show you how to recognise, collect, store, propagate and plant local native seeds. We will also talk about revegetation work in our area. Presented by local botanist Caroline Haskard.

Morning Tea & water provided.

Please bring your own picnic lunch

This is a field day so please wear sun-safe clothing, sturdy shoes, a hat, gloves, water bottle & bring a chair!

FREE Revegetation Guide, plants & seeds and a lucky door St Valentine's day prize!

RSVP 10th Feb 2015

Transport is available from Gayndah & Mundubbera, BOOKINGS ESSENTIAL!!! Please contact BCCA for details and directions.

Plan for the day...

8am - Meet at 'Lynbrook' packing shed, **1542 Gayndah-Mundubbera Rd, Gayndah** – Intro & seed collecting

10:30am Gleneden Organic Farm and Bullock Team, **111 Slab Creek Road, Gleneden** – Seed collecting, sorting & discussion

2pm Finish

This event is supported through funding from the On-Farm Productivity and Riparian Recovery Program supporting primary producing areas severely impacted by flooding following Ex-Tropical Cyclone Oswald 2013, funded by the Queensland and Australian Governments through natural disaster relief and recovery arrangements.
